

# Anyone for ice cream?

June is the month when the weather starts hotting up, and who can resist an ice cream when the sun comes out? In the UK, the average citizen goes through 6 litres of ice cream every year, and with a total expenditure of over a billion pounds, we certainly know how to stop and buy one. And these days, it's not unusual to pay £2 or more for a luxury cone, once the extra toppings and sugar cones are added.

But we all deserve a treat now and then, so why not? We're not saying that you shouldn't indulge yourself once in a while, but just ask whether you might make the same commitment to mission. You'll probably spend a fiver on ice cream this month without really noticing. A regular donation to Home Mission of only £5 a month can make a real difference to the mission of local churches in NWBA. If you can spare a fiver a month can we count you in? Please visit our website to find out more.
