

## Advent Hymn

A light of hope is shining in the darkness  
Amidst the gloom the flame still flickers on  
And though the path we walk today  
May not always be easy  
With hearts of faith we look beyond to heaven's eternal sun

For we have seen our world's salvation dawning  
In human flesh God's grace and likeness shown  
For there within in a helpless child  
His fullness made its dwelling  
That in our world of strife and trial, peace could yet be known

Let you light shine on  
May your Kingdom come  
Bring us hope, bring us peace  
Through your promised son (twice)

And so with hearts upheld by hope and longing  
We wait the day when truth will be unveiled  
In faith we glimpse the signs that point  
To heaven's eternal coming  
When righteousness and freedom's cause will finally prevail

Let you light shine on  
May your Kingdom come  
Bring us hope, bring us peace  
Through your promised son (repeat chorus)

Instrumental verse

Let you light shine on  
May your Kingdom come  
Bring us hope, bring us peace  
Through your promised son (repeat chorus)
